

**COUNTY OF TWO HILLS NO. 21**

**Policy Number**

**PUB-GRV-3**

**Title**

**Private Gravel Sales**

**Page 1 of 2**

**Date Approved**

**December 10, 2014**

## **Policy**

The County of Two Hills wishes to provide ratepayers with the opportunity to purchase crushed gravel and will make crushed gravel available for sale for the ratepayers of the County of Two Hills (residence must be within County boundaries). Additionally, the County wishes to protect its assets and ensure the safety of the County employees.

County Council will determine the rate at which gravel will be sold and delivered to County ratepayers as determined by resolution annually.

County Council reserves the right to limit the amount of gravel to be sold to a maximum of 200 cubic yards per rural address annually within the County of Two Hills. Anything over 200 cubic yards will be at the discretion of Council and must be self-hauled.

Ratepayers can place their gravel order through the Public Works Department beginning April 1 and will be accepted as long as late season weather permits supply and delivery. The end date will be at the discretion of the Public Works Supervisor and/or designate.

Ratepayers will be allowed to choose from these non-spec categories:

- a) ¾ inch crush gravel
- b) 1 ½ inch crush gravel
- c) 2 inch crush gravel

All sales are dependent on surplus availability of product and ability to deliver the product (not to be used for resale).

A County of Two Hills Gravel Delivery Agreement must be executed and paid in full prior to gravel sale and/or delivery.

Ratepayers wishing to haul their own gravel from gravel pits will have the purchase price adjusted to reflect no delivery charge. Gravel picked up in the County public works yard/pits will be charged at full rate.

**Title**

**Private Gravel Sales**

Gravel will be delivered in a minimum quantity of 10 cubic yards.

Ratepayers have the option to have the gravel stockpiled and spread as needed. Ratepayers must ensure the area(s) gravel will be delivered to be free of obstruction and safe for County crews and equipment to work.

During all deliveries, the County driver will have the discretion to determine if conditions permit the gravel to be spread out. In instances where a property is difficult to access or other safety concerns are present, the County will deliver all gravel in a pile and will not spread the gravel.

Pre-inspection of the delivery site may be necessary to determine the type of unit to be used for delivery.

The County reserves the right to refuse delivery of gravel to any ratepayer if the area(s) is deemed by delivery staff as unsafe or difficult to access.
